

### Product description

A spherical powder that is readily dispersible in multiple base formulations.

### TECHNICAL INFORMATION

#### Product properties

Tap Density (g/cc)	5.5
Specific Surface Area (m2/g)	0.90
Weight Loss @ 110°C (%)	0.03
Weight Loss @ 538°C (%)	0.30
Particle Size Distribution by Laser Diffraction	
D50 (µm)	1.2
D100 (µm)	3.0

### Product analysis

#### Scanning Electron Microscopy Image
